## COVID – 19 Update from SCPA

Dear SCPA Members, Sponsors and Partners,

At SCPA, we are closely monitoring the situation of COVID-19 pandemic. Given the severity of the spread and its lasting impact that is ahead of every community, the SCPA Board has made the following decisions and would like to update you accordingly:

- **Planned career workshops:** Will be tentatively postponed to Q4, 2020; SCPA Board and Working Committee will continue to evaluate the situation and make adjustment as needed.
- **SCPA's 2020 Annual Conference:** Will be tentatively cancelled; SCPA Board plans to re-visit our decision as such in the next few months and may reconsider it for Q4, 2020 if the pandemic situation improves significantly in both China and Canada.

We are also aware of the urgent need of support from various medical organizations in Canada. SCPA will make our contributions through different means to combat the diseases. If you receive any request of this nature, please let us know.

SCPA will provide our regular update through SCPA website, WeChat and email.

As WHO Director-General commented on March 25, "We have overcome many pandemics and crises before. We will overcome this one too."

Thank you!

David Chen  
President, SCPA
